Hi Linda and Gabriela - you can hold off on responding by Monday. It was helpful to talk with you, and we had a good talk with Sheila, Elizabeth, and Andrea Latier on Thursday. And I've also gotten some information from Allison Castellan and Alan, too.

I'm now reworking things and now am aiming to just write up the rationale. That will have all the description of what we're doing. So there's nothing you need to forward just yet. I hope to have something early next week. Have a great weekend, and if you have questions, feel free to give me a call. - Jenny

Subject: RE: Updated Pesticides Issue Paper

Hi Jenny – I saw that you'd like a response by Monday, August 11, 2014. If you have an updated issue paper, would you send that version to me so I can forward to OGC? Thank you!

In addition to what I provided over the telephone to you on August 6, 2014, here's some Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) info for you:

Under FIFRA Section 12(a)(2)(G), 7 U.S.C. Section 136j(a)(2)(G), it is unlawful for any person to use any registered pesticide in a manner inconsistent with its labeling.

Under FIFRA Section 23(a), 7 U.S.C. Section 136u(a), EPA may enter into cooperative agreement with states to delegate the authority to cooperate in the enforcement of FIFRA.

Some of the roles and responsibilities of Oregon state agencies to protect water resources from pesticides can be found on pp. 2-3 of Oregon's Pesticide Management Plan at <http://www.oregon.gov/ODA/PEST/docs/pdf/wqpmtPMP.pdf>.

Hope this helps.

Linda

Subject: Updated Pesticides Issue Paper

Hi Everyone (cc: to larger CZARA tech team, FYI),

Thanks everyone for a very helpful call on Monday. I've updated the OR CZARA pesticides (now 5 pages) issue paper based on our discussion and a follow-up discussion with the larger CZARA tech team.

I'm looking for your help in the description, especially to make sure I'm accurately describing the status of the litigation and how the 2013 NRC report will be used. And most importantly, I'm looking for your thoughts on the pros and cons of the options and recommended action to management. I'd appreciate if you could let me know by Monday, August 11, COB. Please feel free to call me if you want to discuss more. Also, as we discussed, we're talking with folks from OEA here tomorrow, so I'll have more information on Triangle Lake. I'm also getting some information from NOAA next week on questions on the litigation. If there's something very relevant, I'll shoot an email to the group.

Thanks,
Jenny Wu
